

## **Download instructions README**

All documents marked (pdf) will open in a separate tab inside of your Internet browser window.

From there you download the file.

The downloaded file will be found in the download folder inside the File Manager.

The Word doc with fillin fields will either down load into a tab at the bottom if you are using Chrome (you can save it from there) or, if you are using Firefox ....either open the file (to look at) or save it (for entering your data).
