

How to search the SAGHS Photographic collection on the Catalogue & Flickr

CATALOGUE

To view photographic records in SAGHS catalogue

1. Go to the Genealogy SA website
 - Resources
 - Society Library
 - Library Catalogue
2. You can view the collection with either a “Basic” or “Advanced” search. Insert inverted commas at the beginning and end of a phrase if you want an exact match, i.e. “James Earle” rather than just Earle.
3. Select “Basic Search”
 - Enter a key word or words into the search field and click enter
 - This will show results for all types of resource i.e. photographs/books/CD’s/microfiche etc. To only search the photographic collection used the “Advanced” search.
4. Select “Advanced Search”
 - From “Types” drop down menu, at the bottom of the page, select “Photographic” which will narrow your search to the photographic collection only i.e. you will not see results for books/CD’s/microfiche etc.
 - If you click “enter” without putting any information in the search fields, you will see 500 photographs currently catalogued in random order. This is the maximum number of results that can be viewed in the catalogue at one time.
 - To narrow your search, enter words into any of the search fields except “Year From/Author/ Publisher/ Subject/Series/UserAuthority1” as these fields do not apply to the photographs.
5. The advanced search fields for the photographs are:
 - **Title** – the title allocated to the photograph (i.e. the name of the person or place)
 - **Family/Name** of the person/people in the photograph
 - **Place** the photograph was taken
 - **Photographer**
 - **Album/Collection** the photograph is part of (if any)
 - **Category** of the photograph (i.e. Portrait/Place/Wedding etc. – refer to list below)
6. From the results you can see more information about the photographs if you hover your cursor over the title or, if you click on a title, an information box will appear
7. Unless there is a restriction because of copyright, you will see a thumbnail image of the photograph and If you click on the thumbnail you will see a slightly larger image.
8. Any entries in the result that are in blue are links to other photographs which have exactly the same entry and can be seen if you click on that entry (i.e. Family/Name [Earle](#))

Category List

- Animal
- Building [excluding *Education, Occupation, Organisation, Sport & Transport*]
- Cemetery
